URGENT:

A potential problem with license renewal has come to our attention

Last year a Pennsylvania Chiropractor had sent his check and license renewal application to the state board and it somehow became lost. Consequently his license lapsed from September until November. Because Independence Blue Cross is mandated by the attorney general of the state, all the money he had received during the time he had no license had to be reimbursed since he was technically practicing without a license. When he told the board he had filed his renewal on time they said proof of receipt was needed.

When the next license renewal comes due September 1, 2006 you must send it by "certified mail with a return receipt".

Message from Sharon Gorman

HAPPY SPRING!! This is my favorite time of year. It is easy for me to appreciate the newness of each day. It is early Monday Morning and the staff are arriving but the patients aren't here yet. I love to get here early so that I can be really ready when the people start coming in. Just like when I have a party I like to be ready, early and await the arrival of the folks. Everything is set and I am ready to serve. I have had a good breakfast. I read through my daytimer so that I can anticipate the activities of the day and the week. I have meditated. I have prayed. I am showered, dressed and ready to serve. Who knows what life will bring my way this day. I guess that makes it even more fun. I know I'm prepared to serve. My prayer for today is that I live God's will for me. My prayer is that God sends me all the people that I can help today. Thank you for allowing me to share with you, Sharon
